SIRE,

Si j'ay dormi durant quarante ans, que j'ay eu cet honneur d'auoir serui en ma charge v^{os} predecesseurs Roys, & à present vostre Majesté: ç'a esté les yeux ouuerts pour me resoudre de plus en plus sur les difficultez de ceste science, par la lecture des bons auteurs & pratique des antiens, outre ce que j'y ay apporté par mon estude & labeur. Et d'autant que ceste science faisant partie des Mathematiques, est demonstratiue & tres-certaine, il est impossible qu'elle ne produise d'admirables effects, & plus grands que les histoires le sçauroyent représenter, laissant à part les merueilles que les Poëtes nous en racontent. Neantmoins plusieurs se messent de la traicter avec confusion si grande (s'appuyans de quelques reigles communes & vulgaires qui seruent de bien peu à la vraye harmonie) qu'il semble que pour ce sujet elle ait esté mesprisée. Non que j'aye en cela intention de m'attribuer aucun merite que de mon labeur, mais seulement qu'elle soit plus dignement recogneuë d'un chacun, & que pour cet effect les professeurs prennent garde d'y apporter les raisons & considerations requises à vne telle science. C'est donc en quoy, SIRE, ce long sommeil m'a beaucoup aydé, duquel aussi je tire ce

contentement d'auoir reſerué l'expoſition de mes œuvres, juſques à ce ſiècle rempli de tant de doctes & judicieux perſonnages, & qui plus eſt ſoubs le regne du plus grand Roy de la terre: Ayant ce bon heur de luy dedier avec le tres-humble ſeruite que je luy dois, ce premier liure de Motets que j'aduance comme pour arres de mes autres labeurs. Que ſ'il eſt fauoriſé d'un ſi grand Monarque, l'auteur ſera d'autant plus encouragé d'employer le reſte de ſes jours à ce penible traual, à la gloire de Dieu & pour le ſeruite de voſtre Maieſté, que ie ſouhaite d'eſtre toujours maintenuë en toute proſperité & ſanté, demeurant à jamais,

SIRE,

*Votre tres-humble & tres-obeiſſant
ſubiect & ſeruiteur,*

LORS que Dieu démesla le chãos obscurcy,
Rangea les elemens, & donna l'ordre au monde :
Les corps harmonieux de ceste masse ronde
Furent tous animez de son vent adoucy.

Ores que DV CAVRROY nous represente icy
D'un crayon immortel la Musique profonde,
Si naturelle, & rare, & diuerse il la fonde,
Que c'est vn corps, vn ame, vn monde racourcy.

Il demesle vn chãos (œuure seul d'un grand maitre,)
Range des elemens, donne l'ordre, & fait naitre
Les corps harmonieux par mille traits hardis.

Il imite de Dieu & l'œuure, & la pratique,
Car son œuure & ce tout ne sont qu'une musique,
Et le monde qu'il fait nous est vn paradis.

A LA ROYNE

MARGVERITE.

ADAME,

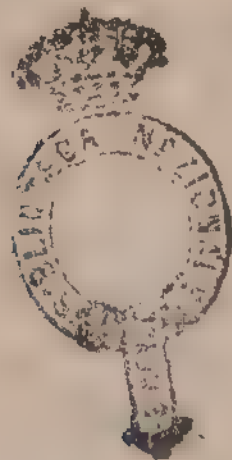

Puis que toute l'Antiquité sacrifioit aux graces pour obtenir quelque grace en leurs labeurs, quelqu'un peut il trouver estrange si les plus rares esprits de ce siecle, dédient leurs inuentions à vostre MAIESTE', qu'ils recognoissent non seulement pour l'une d'icelles, mais pour la

Royne des graces en laquelle reluisent avec verité toutes les perfectiones imaginaires des trois autres? Chacun à la foule porte en vostre Royale maison, comme en vn Temple, ce qu'il a de plus precieux, non pour vous donner, ou pour receuoir, mais pour tirer de vous vne secrette influence, qui bien-heurant leur trauail, le rende apres agreable aux yeux & aux oreilles du public. C'est ce qui me donne maintenant l'assurance, MADAME, de m'aduan- cer parmy ceste presse, & tascher par le moyen de la Musique (à

laquelle vostre MAIESTE' a vne particuliere inclination) de par-
uenir iusques au trosne de vostre Royale grandeur pour luy de-
uoüer mon tres-humble seruice, & luy représenter que si ma bas-
sesse ne luy peut offrir que de l'harmonie, mon affection est tou-
tesfois assez puissante pour consacrer son sang & sa vie à sa hau-
tesse.

IRE,

A large, ornate initial letter 'S' from a manuscript. The 'S' is decorated with a figure of a woman in the upper loop and a figure of a man in the lower loop. The background is filled with intricate floral and foliate patterns, including a rabbit in the bottom right corner.

Si j'ay dormi durant quarante ans, que j'ay eu cet honneur d'auoir serui en ma charge vos predecesseurs Roys, & à present vostre Majesté: ç'a esté les yeux ouuerts pour me resoudre de plus en plus sur les difficultez de ceste science, par la lecture des bons auteurs & pratique des antiens, outre ce que j'y ay apporté par mon estude & labeur. Et d'autant que ceste science faisant partie des Mathematiques, est demonstratiue & tres-certaine, il est impossible qu'elle ne produise d'admirables effects, & plus grands que les histoires le sçauroyent représenter, laissant à part les merueilles que les Poëtes nous en racontent. Neantmoins plusieurs se meslent de la traicter avec confusion si grande (s'appuyans de quelques reigles communes & vulgaires qui seruent de bien peu à la vraye harmonie) qu'il semble que pour ce sujet elle ait esté mesprisée. Non que j'aye en cela intention de m'attribuer aucun merite que de mon labeur, mais seulement qu'elle soit plus dignement recogneuë d'un chacun, & que pour cet effect les professeurs prennent garde d'y apporter les raisons & considerations requises à vne telle science. C'est donc en quoy, SIRE, ce long sommeil m'a beaucoup aydé, duquel aussi je tire ce

contentement d'auoir reserué l'exposition de mes œuvres, jusques à ce siecle rempli de tant de doctes & judicieux personnages, & qui plus est sous le regne du plus grand Roy de la terre: Ayant ce bon heur de luy dedier avec le tres-humble seruice que je luy dois, ce premier liure de Motets que j'aduance comme pour arres de mes autres labeurs. Que s'il est fauorisé d'un si grand Monarque, l'auteur sera d'autant plus encouragé d'employer le reste de ses jours à ce penible trauail, à la gloire de Dieu & pour le seruice de vostre Majesté, que ie souhaite d'estre toujours maintenuë en toute prospérité & santé, demeurant à jamais,

SIRE,

LORS que Dieu démesla le cháos obscurcy,
Rangea les elemens, & donna l'ordre au monde:
Les corps harmonieux de ceste masse ronde
Furent tous animez de son vent adoucy.

Ores que DV CAVRROY nous represente icy
D'un crayon immortel la Musique profonde,
Si naturelle, & rare, & diuerse il la fonde,
Que c'est vn corps, vn ame, vn monde racourcy.

Il demesle vn cháos (œuvre seul d'un grand maitre,)
Range des elemens, donne l'ordre, & fait naitre
Les corps harmonieux par mille traits hardis.

Il imite de Dieu & l'œuvre, & la pratique,
Car son œuvre & ce tout ne sont qu'une musique,
Et le monde qu'il fait nous est vn paradis.

SIRE,

Si j'ay dormi durant quarante ans, que j'ay eu cet honneur d'auoir serui en ma charge vos predecesseurs Roys, & à present vostre Majesté: ç'a esté les yeux ouuerts pour me resoudre de plus en plus sur les difficultez de ceste science, par la lecture des bons auteurs & pratique des antiens, outre ce que j'y ay apporté par mon estude & labeur. Et d'autant que ceste science faisant partie des Mathematiques, est demonstratiue & tres-certaine, il est impossible qu'elle ne produise d'admirables effects, & plus grands que les histoires le scauroyent représenter, laissant à part les merueilles que les Poëtes nous en racontent. Neantmoins plusieurs se messent de la traicter avec confusion si grande (s'appuyans de quelques reigles communes & vulgaires qui seruent de bien peu à la vraye harmonie) qu'il semble que pour ce sujet elle ait esté mesprisée. Non que j'aye en cela intention de m'atribuer aucun merite que de mon labeur, mais seulement qu'elle soit plus dignement recogneuë d'un chacun, & que pour cet effect les professeurs prennent garde d'y apporter les raisons & considerations requises à vne telle science. C'est donc en quoy, SIRE, ce long sommeil m'a beaucoup aydé, duquel aussi je tire ce

contentement d'auoir reserué l'exposition de mes œuures, jusques à ce siecle rempli de tant de doctes & judicieux personages, & qui plus est soubs le regne du plus grand Roy de la terre: Ayant ce bon heur de luy dedier avec le tres-humble seruice que je luy dois, ce premier liure de Motets que j'aduance comme pour arres de mes autres labeurs. Que s'il est fauorisé d'un si grand Monarque, l'autheur fera d'autant plus encouragé d'employer le reste de ses jours à ce penible trauail, à la gloire de Dieu & pour le seruice de vostre Majesté, que ie souhaite d'estre toujours maintenue en toute prosperité & santé, demeurant à jamais,

SIRE,

LORS que Dieu démesla le chãos obscurcy,
Rangea les elemens, & donna l'ordre au monde:
Les corps harmonieux de ceste masse ronde
Furent tous animez de son vent adoucy.

Ores que DV CAVRROY nous represente icy
D'un crayon immortel la Musique profonde,
Si naturelle, & rare, & diuerse il la fonde,
Que c'est vn corps, vn ame, vn monde racourcy.

Il demesle vn chãos (œuure seul d'un grand maitre,)
Range des elemens, donne l'ordre, & fait naitre
Les corps harmonieux par mille traits hardis.

Il imite de Dieu & l'œuure, & la pratique,
Car son œuure & ce tout ne sont qu'une musique,
Et le monde qu'il fait nous est vn paradis.

Chacun à la foule porte en vostre Royale maison, comme en vn Temple, ce qu'il a de plus precieux, non pour vous donner, ou pour receuoir, mais pour tirer de vous vne secrette influence, qui bien-heurant leur trauail, le rende apres agreable aux yeux & aux oreilles du public. SIRE,

Si j'ay dormi durant quarante ans, que j'ay eu cet honneur d'auoir serui en ma charge vos predecesseurs Roys, & à present vostre Majesté: ç'a esté les yeux ouuerts pour me resoudre de plus en plus sur les difficultez de ceste science, par la lecture des bons auteurs & pratique des antiens, outre ce que j'y ay apporté par mon estude & labeur. Et d'autant que ceste science faisant partie des Mathematiques, est demonstratiue & tref-certaine, il est impossible qu'elle ne produise d'admirables effects, & plus grands que les histoires le sçauroyent représenter, laissant à part les merueilles que les Poëtes nous en racontent. Neantmoins plusieurs se messent de la traicter avec confusion si grande (s'appuyans de quelques reigles communes & vulgaires qui seruent de bien peu à la vraye harmonie) qu'il semble que pour ce subyet elle ait esté mesprisée. Non que j'aye en cela intention de m'attribuer aucun merite que de mon labeur, mais seulement qu'elle soit plus dignement recogneuë d'un chacun, & que pour cet effect les professeurs prennent garde d'y apporter les raisons & considerations requises à vne telle science. C'est donc en quoy, SIRE, ce long sommeil m'a beaucoup aydé, duquel aussi je tire ce

contentement d'auoir reserué l'exposition de mes œuvres, jusques
à ce siecle rempli de tant de doctes & judicieux personnages, &
qui plus est sous le regne du plus grand Roy de la terre: Ayant
ce bon heur de luy dedier avec le tres-humble seruice que je luy
dois, ce premier liure de Motets que j'aduance comme pour arres
de mes autres labours. Que s'il est fauorisé d'un si grand Monarque,
l'autheur sera d'autant plus encouragé d'employer le reste de ses
jours à ce penible trauail, à la gloire de Dieu & pour le seruice de
vostre Majesté, que ie souhaite d'estre toujours maintenüe en
toute prosperité & santé, demeurant à jamais,

SIRE,

ORS que Dieu démesla le châos obscurcy,
Rangea les elemens, & donna l'ordre au monde:
Les corps harmonieux de ceste masse ronde
Furent tous animez de son vent adoucy.

Ores que DV CAYRROY nous represente icy
D'un crayon immortel la Musique profonde,
Si naturelle, & rare, & diuerse il la fonde,
Que c'est vn corps, vn ame, vn monde racourcy.

Il demesle vn châos (œuure seul d'un grand maitre,)
Range des elemens, donne l'ordre, & fait naitre
Les corps harmonieux par mille traits hardis.

Il imite de Dieu & l'œuure, & la pratique,
Car son œuure & ce tout ne sont qu'une musique,
Et le monde qu'il fait nous est vn paradis.

Puis que toute l'Antiquité sacrifioit aux graces pour obtenir quelque grace en leurs labeurs, quelqu'un peut il trouver estrange si les plus rares esprits de ce siecle, dédient leurs inuentions à vostre M A I E S T É , qu'ils recognoissent non seulement pour l'une d'icelles , mais pour la Royne des graces en laquelle reluisent avec verité toutes les perfections imaginaires des trois autres ? Chacun à la foule porte en vostre Royale maison , comme en vn Temple, ce qu'il a de plus precieux , non pour vous donner, ou pour recevoir, mais pour tirer de vous vne secrette influence , qui bien-heurant leur trauail , le rende apres agreable aux yeux & aux oreilles du public . C'EST beaucoup de chanter l'Amour qui nous agrée,
Et d'auoir pour loyer le myrthe Paphien,
Mais c'est tout de gagner le laurier Delphien
Pour chanter du grand Dieu la loüange sacrée.

Au recit des beaux Airs la France se recrée,
Et luy semble d'ouir ce chantre Thracien:
Mais elle entend Dauid ce saint Musicien,
Quand elle oyt (DV CAVRROY) ta Musique sucrée.

C'est vn Nepenthe doux, vn Moly precieux,
Panace chasse-maux, Dictame officieux,
Qui charme, & qui descharme, & guerit, & r'auine.

SIRE,

Si j'ay dormi durant quarante ans, que j'ay eu cet honneur d'auoir serui en ma charge vos predecesseurs Roys, & à present vostre Majesté: ç'a esté les yeux ouuerts pour me resoudre de plus en plus sur les difficultez de ceste science, par la lecture des bons auteurs & pratique des antiens, outre ce que j'y ay apporté par mon estude & labeur. Et d'autant que ceste science faisant partie des Mathematiques, est demonstratiue & tref-certaine, il est impossible qu'elle ne produise d'admirables effects, & plus grands que les histoires le sçauroyent représenter, laissant à part les merueilles que les Poëtes nous en racontent. Neantmoins plusieurs se messent de la traicter avec confusion si grande (s'appuyans de quelques reigles communes & vulgaires qui seruent de bien peu à la vraye harmonie) qu'il semble que pour ce sujet elle ait esté mesprisée. Non que j'aye en cela intention de m'atribuer aucun merite que de mon labeur, mais seulement qu'elle soit plus dignement recogneuë d'un chacun, & que pour cet effect les professeurs prennent garde d'y apporter les raisons & considerations requises à vne telle science. C'est donc en quoy, SIRE, ce long sommeil m'a beaucoup aydé, duquel aussi je tire ce

contentement d'auoir reserué l'exposition de mes œuures, jusques à ce siecle rempli de tant de doctes & judicieux personnages, & qui plus est soubs le regne du plus grand Roy de la terre: Ayant ce bon heur de luy dedier avec le tres-humble seruice que je luy dois, ce premier liure de Motets que j'aduance comme pour arres de mes autres labeurs. Que s'il est fauorisé d'un si grand Monarque, l'auteur sera d'autant plus encouragé d'employer le reste de ses jours à ce penible trauail, à la gloire de Dieu & pour le seruice de vostre Majesté, que ie souhaite d'estre toujours maintenuë en toute prosperité & santé, demeurant à jamais,

SIRE,

ORS que Dieu démesla le chãos obscurcy,
Rangea les elemens, & donna l'ordre au monde :
Les corps harmonieux de ceste masse ronde
Furent tous animez de son vent adoucy.

Ores que DV CAVRROY nous represente icy
D'un crayon immortel la Musique profonde,
Si naturelle, & rare, & diuerse il la fonde,
Que c'est vn corps, vn ame, vn monde racourcy.

Il demesle vn chãos (œuvre seul d'un grand maitre,)
Range des elemens, donne l'ordre, & fait naitre
Les corps harmonieux par mille traits hardis.

Il imite de Dieu & l'œuvre, & la pratique,
Car son œuvre & ce tout ne sont qu'une musique,
Et le monde qu'il fait nous est vn paradis.

SIRE,

Si j'ay dormi durant quarante ans, que j'ay eu cet honneur d'auoir serui en ma charge vos predecesseurs Roys, & à present vostre Majesté: ç'a esté les yeux ouuerts pour me resoudre de plus en plus sur les difficultez de ceste science, par la lecture des bons auteurs & pratique des antiens, outre ce que j'y ay apporté par mon estude & labeur. Et d'autant que ceste science faisant partie des Mathematiques, est demonstratiue & tres-certaine, il est impossible qu'elle ne produise d'admirables effects, & plus grands que les histoires le sçauroyent représenter, laissant à part les merueilles que les Poètes nous en racontent. Neantmoins plusieurs se messent de la traicter avec confusion si grande (s'appuyans de quelques reigles communes & vulgaires qui seruent de bien peu à la vraye harmonie) qu'il semble que pour ce subjet elle ait esté mesprisée. Non que j'aye en cela intention de m'atribuer aucun merite que de mon labeur, mais seulement qu'elle soit plus dignement recogneuë d'un chacun, & que pour cet effect les professeurs prennent garde d'y apporter les raisons & considerations requises à vne telle science. C'est donc en quoy, SIRE, ce long sommeil m'a beaucoup aydé, duquel aussi je tire ce

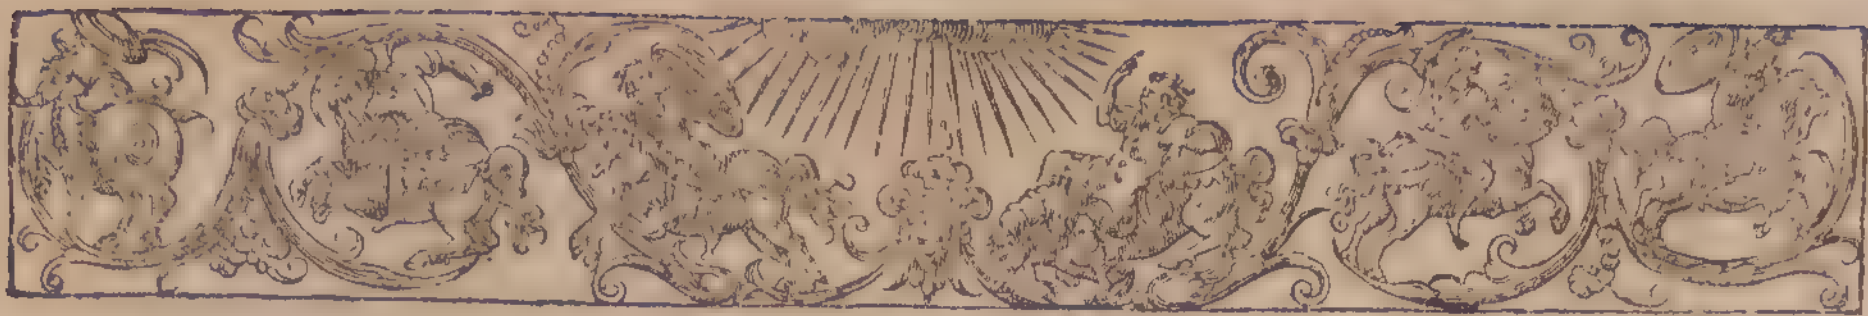

contentement d'auoir reserué l'exposition de mes œuures, jusques à ce siecle rempli de tant de doctes & judicieux personages, & qui plus est soubs le regne du plus grand Roy de la terre: Ayant ce bon heur de luy dedier avec le tref-humble seruice que je luy dois, ce premier liure de Motets que j'aduance comme pour arres de mes autres labeurs. Que s'il est fauorisé d'un si grand Monarque, l'auteur sera d'autant plus encouragé d'employer le reste de ses jours à ce penible trauail, à la gloire de Dieu & pour le seruice de vostre Majesté, que ie souhaite d'estre toujours maintenuë en toute prosperité & santé, demeurant à jamais,

SIRE,

LORS que Dieu démesla le chãos obscurcy,
Rangea les elemens, & donna l'ordre au monde :
Les corps harmonieux de ceste masse ronde
Furent tous animez de son vent adoucy.

Ores que DV CAVROY nous represente icy
D'un crayon immortel la Musique profonde,
Si naturelle, & rare, & diuerse il la fonde,
Que c'est vn corps, vn ame, vn monde racourcy.

Il demesle vn chãos (œuure seul d'un grand maitre,
Range des elemens, donne l'ordre, & fait naitre
Les corps harmonieux par mille traïts hardis.

Il imite de Dieu & l'œuure, & la pratique,
Car son œuure & ce tout ne sont qu'une musique,
Et le monde qu'il fait nous est vn paradis.

The musical score for the Soprano part consists of four staves. The first staff contains the first line of music, the second staff the second line, the third staff the third line, and the fourth staff the fourth line. The music is written in a single system with a key signature of one flat (B-flat) and a common time signature (C). The notes are primarily half notes and quarter notes, with some rests. The lyrics are printed below the staves, aligned with the corresponding notes.

Four empty musical staves, each consisting of five lines, arranged vertically. These staves are intended for other parts of the musical setting, such as Alto, Tenor, and Bass.

Puis que toute l'Antiquité sacrifioit aux graces pour obtenir quelque grace en leurs labeurs, quelqu'un peut il trouuer estrange si les plus rares esprits de ce siecle, dédient leurs inuentions à vostre M A I E S T E', qu'ils recognoissent non seulement pour l'une d'icelles, mais pour la Royne des graces en laquelle reluisent avec verité toutes les perfectiones imaginaires des trois autres? C'EST beaucoup de chanter l'Amour qui nous agrée,
Et d'avoir pour loyer le myrthe Paphien,
Mais c'est tout de gagner le laurier Delphien
Pour chanter du grand Dieu la loüange sacrée.

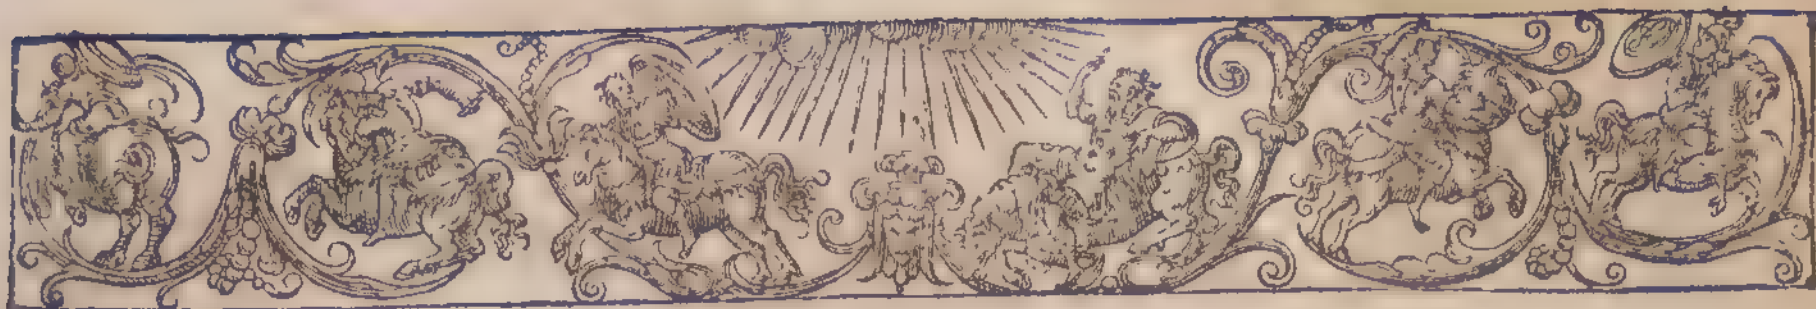

Au recit des beaux Airs la France se recrée,
Et luy semble d'ouïr ce chantre Thracien:
Mais elle entend David ce saint Musicien,
Quand elle oyt (DV CAVRROY) ta Musique sacrée.
